

Sound Effect and Stock Music Files at UB

All the music files from the library CDs have been transferred to the file server "Scooby". We have paid for the rights to these sounds effects and you may use at will.

To Download:

1. In the OS X Finder, go to menu Go>Connect to Server.
2. Type: scooby.ubalt.edu
3. Click on "Guest"
4. Select "Scooby Server" - that's the drive they're on.
5. On the disk is a folder called Audio - all the files are located in there.
6. There is no indexing system of any kind as of yet.
7. You can use the computers FIND command to find what you want.
 - o Click anywhere on the desktop.
 - o Make sure the Sound Effect Folder is open on the desktop
 - o Apple + F (or File>Find)
 - o Along the top of the Find window you'll see the Others listed next to servers, computer, home.
 - o Click it
 - o Choose Scooby Server from the list. Uncheck everything else.
 - o In the search window (top right) type your search command.
 - o You'll get a list. At the bottom of the window you'll see the location.
 - o Click back in the Sound Effect Folder on the Desktop and locate it.
8. If you change to "column view" in the finder window and you click ONCE on an audio file, a preview progress bar appears to the right, allowing you to click on the tiny PLAY button and listen to the sounds streaming directly from the server (wear your headphones).
9. Import to Audacity or copy to your removable media for taking home.
